Caring for Your Garments

Care of Clothing

Taking care of your school wear garment is very important. Following our care instructions on the garment will help you get the best out of it.

Stains

The sooner you treat the stain the better. The longer it sits the harder it is to remove. Cold water is often the best remedy.

Washing

The sooner you treat the stain the better. The longer it sits the harder it is to remove. Cold water is often the best remedy.

Drying

We recommend you always wash your garments prior to wearing. Wash them inside out. When washing use warm or cold water. Separate dark colours and whites. Fasten zips, studs, buttons buckles and velcro prior to washing. Chlorine bleach and pre-soaks are not recommended.

Ironing

Try to avoid hanging wet cloths in direct sunlight. If you need to do so always ensure they are hung inside out. Ironing If your garment is printed to avoid smudging do not apply a hot iron directly to the print.

Item Care Instructions For Pique Knit
